We have delivered more than 250+ LMS solutions for some of the major industry giants of education, healthcare, corporates, banking, government, etc...

Open, Intuitive and Semantic Learning Management System

Mobilizing Sustainable Finance for Small and Medium-Sized Enterprises

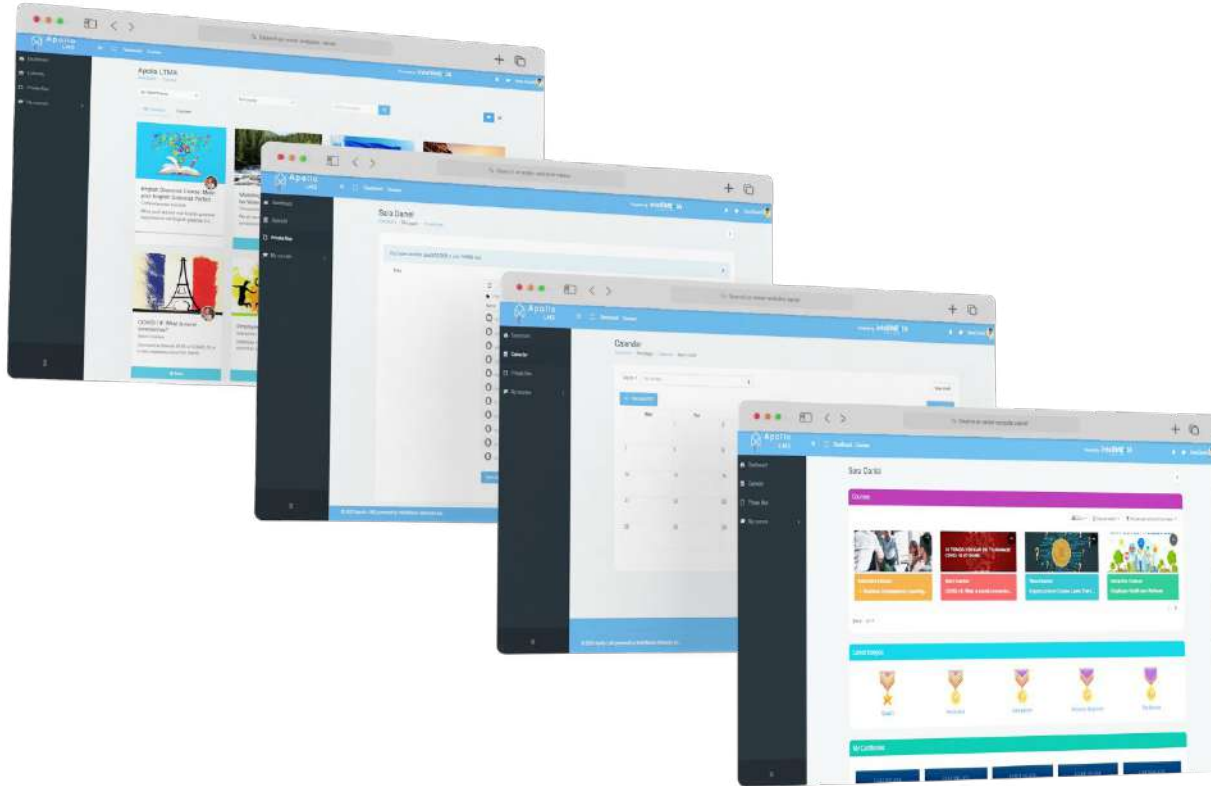

Problem Statement

As the COVID-19 pandemic shoot up in early 2020, universities were challenged with transforming their education programs from face-to-face delivery to an online or virtual learning model. The leading USA-based University was looking for a secure and reliable platform that could serve as a common knowledge base to deliver all its online and offline classroom training to its over 3,00,000 students and over 300 courses, across the globe easier, efficient as well as cost and time effective.

Solution Provided

IntelliMedia worked in close partnership with the University to recognize complications, existing structure, and their business goals during project initiation. Based on their current workflow & processes, IntelliMedia shaped the simplest suite that powers the creation, management, and experience of immersive learning with a unique level of data-driven insights and simulates real-world environments.

Platform - Web, Mobile & TV apps

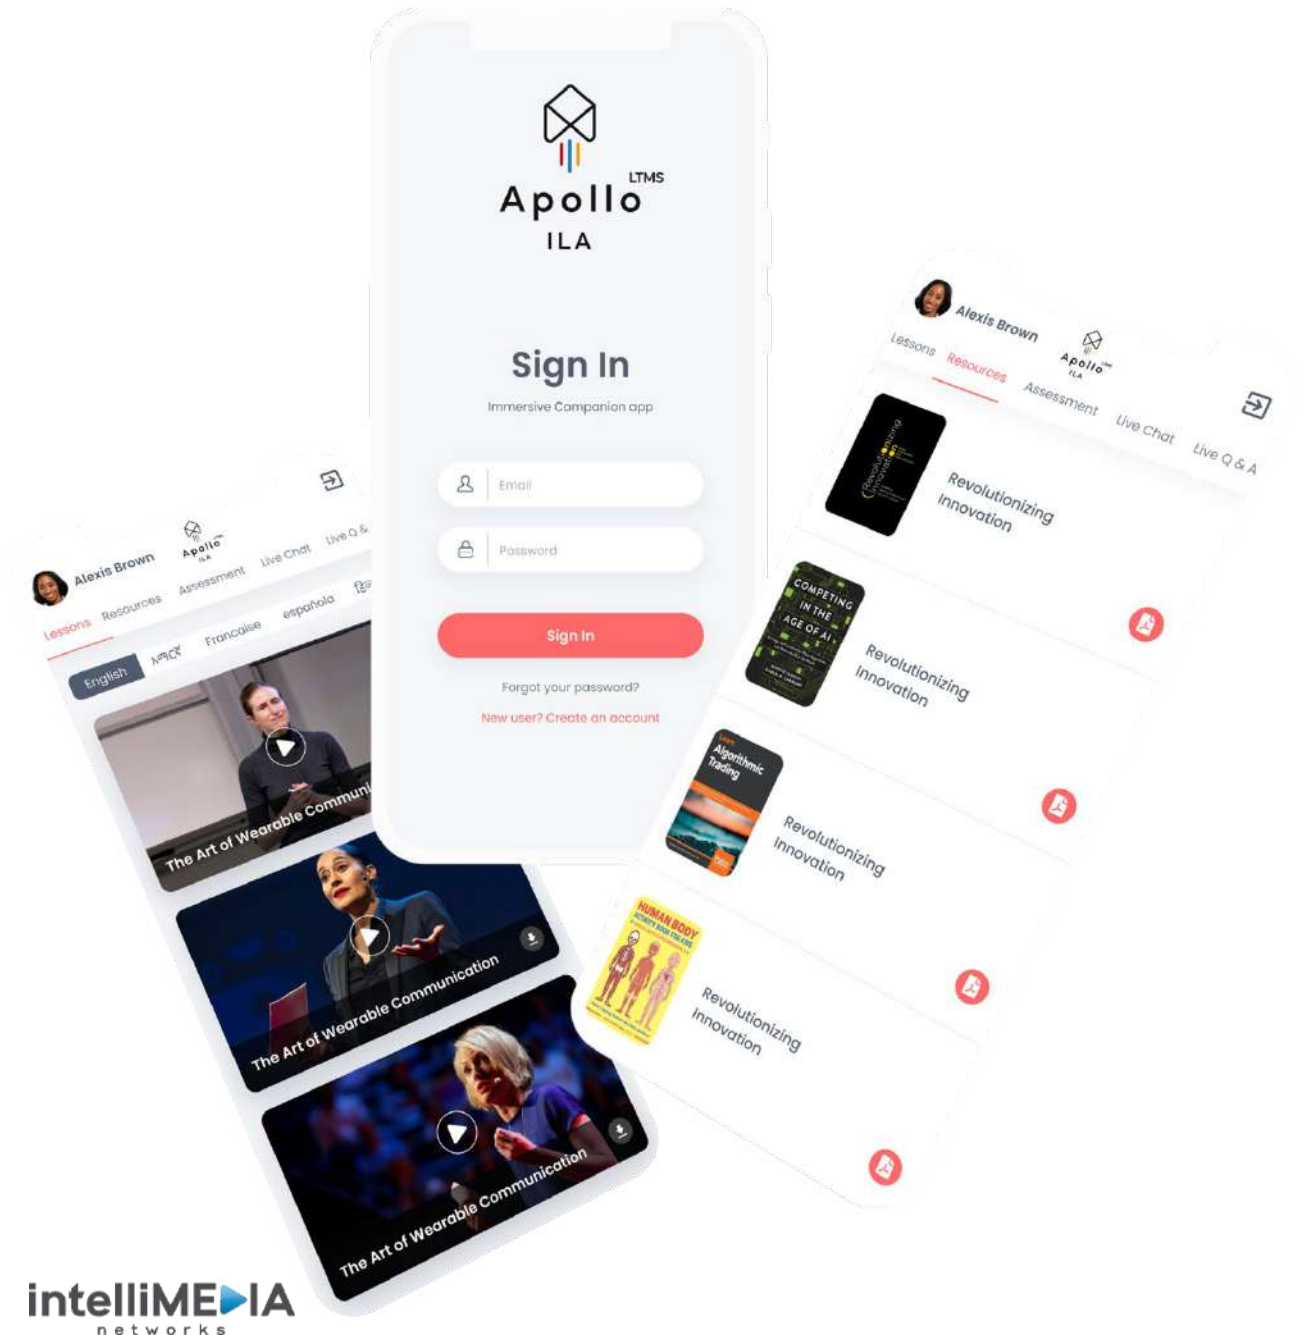

Digitization of Learning

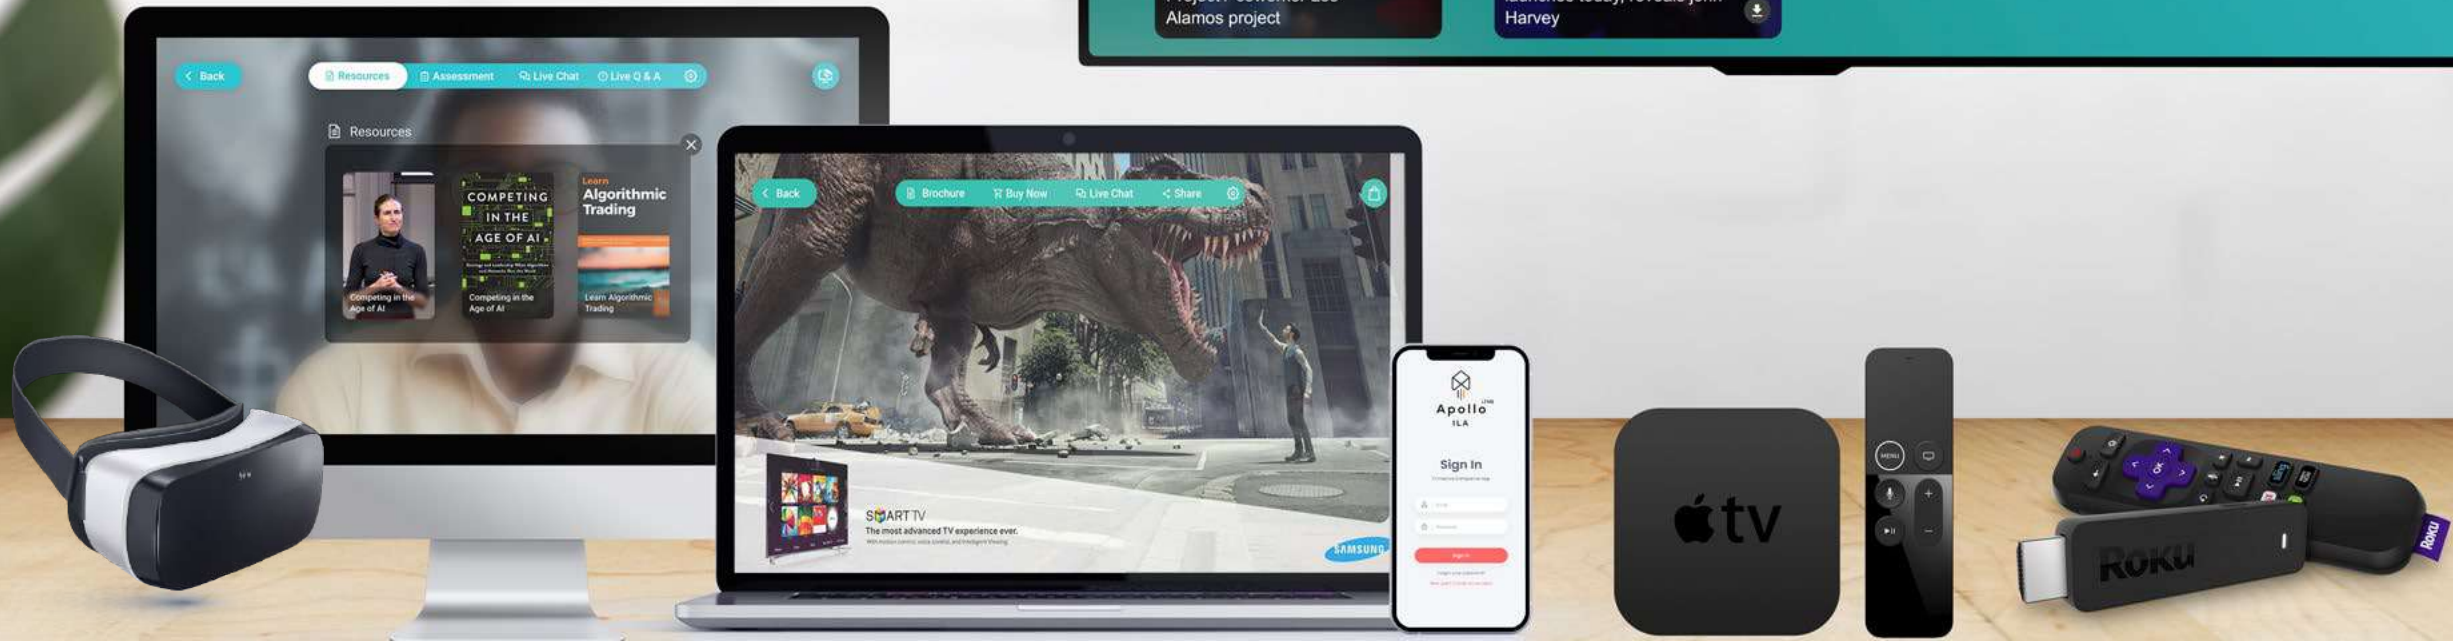

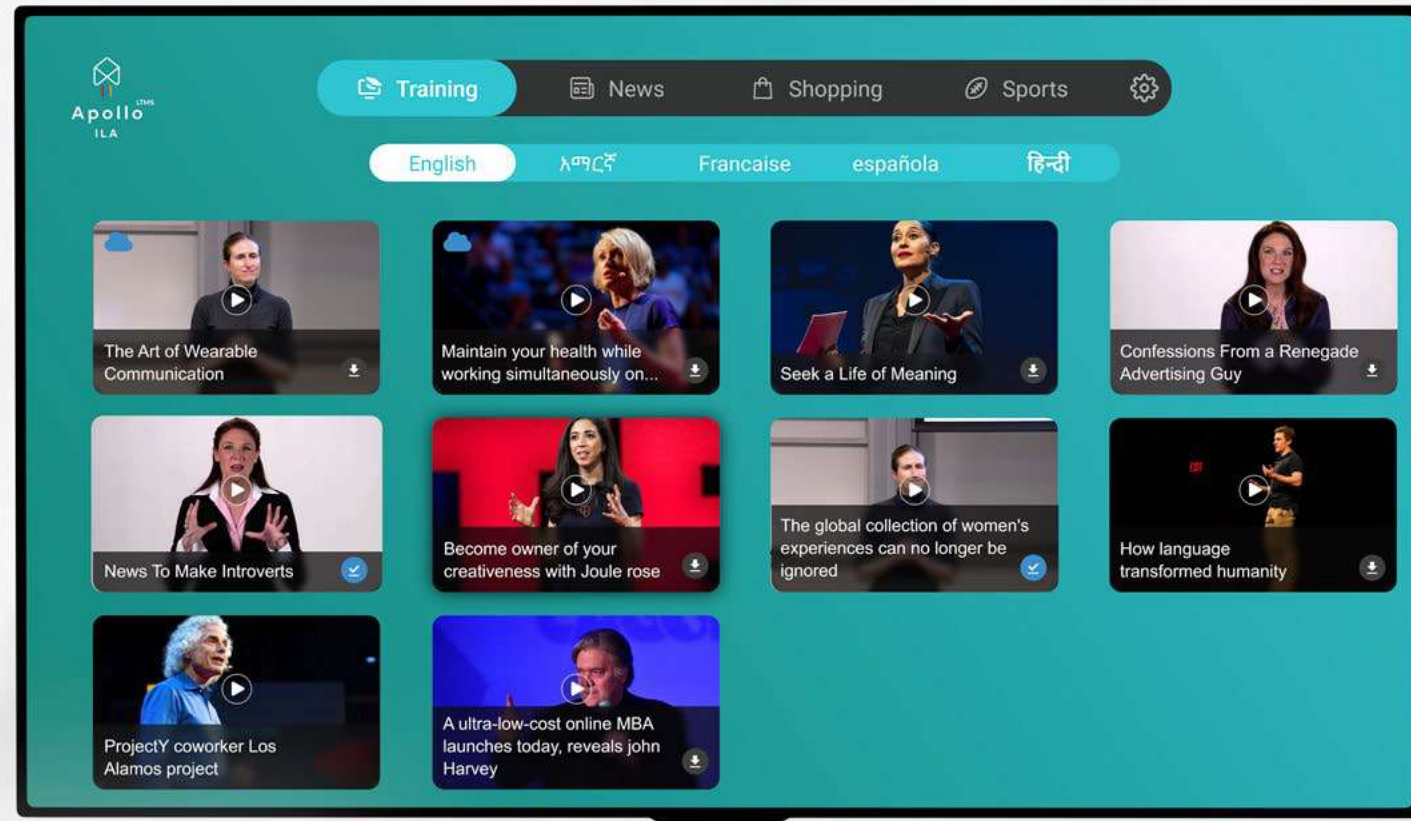

COVID-19 has accelerated the transition to blended and digital learning solutions

Features we delivered

- ❖ End-to-end course customization
- ❖ E-learning for students with wearables
- ❖ Powerful course builder
- ❖ Interactive virtual classroom
- ❖ Discussion channels
- ❖ Learner-Instructor Real-time Interaction
- ❖ Classroom audit logs
- ❖ Restrict class activity to class members only
- ❖ Two-way Audio & Video
- ❖ Session Recording

Contextual microlearning experience through mobile, web, wearables and tv apps.

Empowering teaching and learning from anywhere, on any device, and give your class more flexibility and mobility

IntelliMedia inspires community engagement and inclusive learning environments through the use of emerging technologies.
